1. Rental motorbikes are not insured in Thailand, so I agree to pay immediately the current price in case of scratches, damages and broken parts of the rented bike caused by myself or third parties during the rental period (refer to detailed spare parts document). I agree to be responsible for any damages to the motorbike, even if I am not at fault. This includes damages caused by others, such as when the motorbike is parked. Furthermore I agree to pay the current price in case of theft of the bike or any part of the bike.

If i have an accident, or if i damage some parts of the bike, i have to call Jungle Wheels immediately in order to order the new parts before the end of my rental. Damaged parts are always changed and cannot be repainted.

If the battery runs out, we will provide assistance free of charge during our business hours. However, the cost of a replacement battery will be at your expense. Prices range from 850 THB to 1,800 THB, depending on the scooter model.

Automatic motorbikes are not suitable for riding in the mountains. If I go up to the hills, I will damage engine parts and have to pay for it.

In addition, it is very dangerous because I risk being blocked on a climb or having no brakes on a descent. Jungle Wheels reserve the right to refuse or stop a rental if my accommodation is too high and the road is too steep. For instance, it's forbidden to go to : Pra Buddha Dipankara, the Roof, Jungle Club, Magic garden...
